

Premium DOOH wall: Centrālā stacija - Origo

Technical requirements

Adress: Stacijas laukums 2

Visibility

3D

Dimensions:

21600 px (P) x 9920 (A) px

Video length:

6 seconds / 12 seconds

Resolution:

2700 x 1240 PxA (pixels)

Frames:

60 fps (frames per second)

Suitable graphical formats:

JPEG, PNG ar RGB krāsām

Suitable video formats:

MPEG-4 / .mp4 (no audio)

Only slow, inaggressive, non-dazzling and non-blinding animation

Technical drawing

The total size of the screen surface is 21600 mm (W) x 9920 mm (H) or 214,272 m².

Screen configuration:

Premium DOOH wall Centrālā stacija - Origo

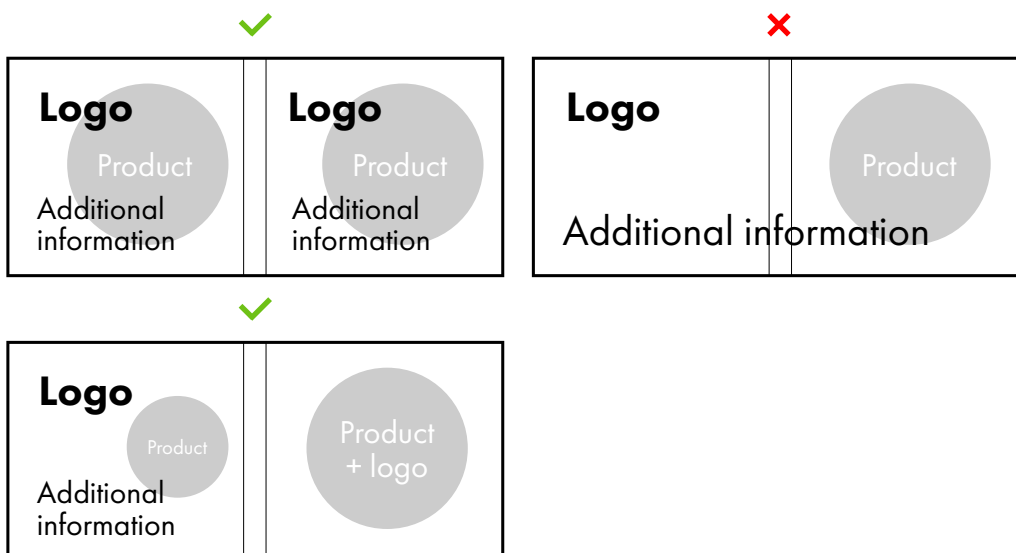

Design
recommendations

This digital wall is curved around the corner of the building at a 90° angle. Therefore, when creating the design, it is important to take into account that only part of the total flow will see all of the created content. From viewing points A and B, the audience will only see half of the created material.

Schematic image of a curved wall

Please consider a few design recommendations when preparing video material!

To create a video with a 3D corner effect, additional conditions are required. These are described in more detail in the technical specifications for 3D video.

Guidelines for creating digital advertising content

To ensure compliance with the laws and regulations and to avoid being suspended or banned by the municipality, please observe the following rules when creating digital advertising materials:

Lighting effects

- The use of rapidly changing sudden or intense lighting effects is prohibited.
- Avoid fast framing, flickering, flashes, excessive transition effects that may be interpreted as distracting or visually intrusive.
- Lighting effects should be visually calm and flowing.
- This requirement is based on the Riga City Council Binding Regulation No RD-23-201 -sn of 31 May 2023.

JCDecaux reserves the right to reject the placement of the submitted design on the screen.
